MEMORANDUM FOR: Associate General Counsel for
Intelligence Community Affairs

FROM: John H. Stein
Deputy Director for Operations

SUBJECT: American Bar Association Questionnaire on
Intelligence Community Oversight

REFERENCE: OGC 84-1120, 13 January 1984

The existing Executive, Legislative and in-house oversight structures are appropriate, adequate and effective with respect to activities of this Directorate. Any additional mechanisms or intensification of the oversight process would be counter-productive in terms of redundancy and the additional manpower and other Directorate resources that would be required for response. Beyond this general statement, I do not believe it is appropriate to provide further detail which may, according to the letter from the American Bar Association, be quoted or published in extenso; albeit representing the personal views of the CIA General Counsel. *

* Obviously, I have no problem in a reply which expands on our reasons for making the statement in paragraph.
